Hi Cindi:

We made contact with Hilcorp through their Texas office. They identified Bill Britt (appears to be currently with Chevron) as their environmental contact so I have an email into Bill for his contact information that Chris can use to complete the DMR-QA submittal to EPA HQ next week.

I also asked them to keep us apprised if the transfer/sale does not go as planned. I would appreciate it if you could also keep me and Chris in mind in your dealings with Faye Sullivan if you hear any new or relevant information on the final closing/sale, etc.

Thanks for your response.

Rick
